

**Naviance/TCCI** is Mercer Island High School's web based service for the college choice/application/admission process. This was initially purchased in 2004, through a generous grant from the Mercer Island Schools Foundation. This service provides families with up-to-date, objective information about four year high school plans, college choices, admissions, career and personality inventories (*Do What You Are*), scholarships, and biweekly emails to juniors and seniors and their parents, sent by Mrs. Hillstrom. Naviance now has the most exhaustive college search engine and college information source on the market! Students can also manage their application process by using the tools on Naviance. Parents can add their emails by following this procedure:

- Go to <http://connection.naviance.com/mihs>
- Go to Family Connection link
- You will need to log into your student's account, using his/her password
- Go to "my profile"
- Go to "add a new parent"
- There you will add your email address. Mrs. Hillstrom's emails will automatically be sent to parents along with students

For parents to access other information such as scholarships, college search, and personality and career inventories you will need to use your student's account information. If your student lost his/her registration code, to initiate a Naviance account, please tell him/her to go to the MIHS counseling center and talk with Sheryl Erlichman, our secretary. She will give the registration code to the student. I hope you find this service as valuable as I do!  
Mrs. Hillstrom
